OBJECTIVE

A highly motivated Full Stack Developer with 1 year of experience, proficient in Node.js and React.js. Passionate about creating scalable and efficient solutions, I am eager to contribute my expertise in developing and maintaining innovative technologies that enhance business processes and improve user experiences.

PROFESSIONAL EXPERIENCE

Software Engineer
Avasoft Pvt Ltd, Chennai, India
(July 2023 - July 2024)

PROJECT EXPERIENCE

Full stack developer - Cloud Gen

Technology - React.js, Node.js and MsSQL

- Led the development efforts for CloudGen, an innovative web application designed to empower cloud engineers with intuitive drag-and-drop functionalities for service deployment and configuration.
- Collaborate closely with cross-functional teams to **gather requirements** from the Cloud team and incorporate them into application development.
- Utilized Plant UML to create **UML diagrams**, providing efficient **visual representation**.
- Implemented the **4D process** (Define, Design, Development, and Deployment) to ensure meticulous development, thereby improving **efficiency** and reducing the time and resources typically spent in **standard application** development practices.
- Backend connectivity use Node.js to enhance proper connection to create the AWS service based on the configuration passed from Api and to build the architecture on the AWS for the specified projects
- React.js is used to create a user-friendly UI for configuring various services through simple drag-and-drop actions, enabling easy diagrammatic structuring of services.

EDI-Support - ModeGlobal

Technology - IBM Sterling integrator , BTMS , TRITAN, JIRA

- Provided exceptional customer support services to clients of ModeGlobal, addressing inquiries, troubleshooting issues, and ensuring customer satisfaction.
- Utilized IBM sterling Integrator ,BTMS, Tritan tools to track, prioritize, and document support cases, maintaining a high level of organization and efficiency.
- Continuously monitored EDI file flows in Lightwell and promptly communicated with carriers or customers regarding any errors detected within our monitoring scope.
- Developed and implemented EDI communications for new customers and carriers, leveraging mapping software to ensure accurate and efficient data transmission aligned with industry standards and client specifications.

EDUCATION

Nandha college of technology - erode

2023

**BE - Electronics and communication
engineering**

2019 - 2023

cgpa - 7.0

2019

Velevan matric hr.sec.school

HSC

2018 - 2019

percentage - 63%

2017

Velevan matric hr.sec.school

SSLC

2016 - 2017

percentage - 83%

TECHNICAL PROFICIENCIES

Programming Language

- Java
- Python
- JavaScript
- C

Web technology

- Node.js
- React.js
- HTML
- CSS

Database

- MsSQL
- PostgreSQL

Frameworks and libraries

- Spring Boot
- Express.js
- RestAPI
- Python Flask

Tools

- Postman
- GitHub (Version Control)
- Plant UML
- IBM Sterling integrator
- Map editor
